

## Interreg NPA Project Communication Checklist & Feedback

This is a checklist designed to assist project communication managers in keeping track of the progress towards the Interreg NPA communication requirements.

At the same time, it is an opportunity for the programme to collect your feedback and suggestions about the communication guidance and templates so far prepared.

The checklist will help you have an overview on your project progress in communication. Your feedback will help us improve and simplify the work of the future project communication managers!

Please complete one checklist per project, for this reason your answers will not be anonymous. You will have to complete the form in one go, it should take approximately 10 minutes. You can download a pdf of the questions [here](#).

**We kindly ask you to submit your finished checklist at the latest with the 1st project report.**

Thank you very much for your help!
